

# COMMUNITY IS KEY KEDRON HIGH SCHOOL CAREERS DAY

Dugan & Co Property value community engagement, support and the next generation that will shape our future. Paul Dugan, founder and principal of Dugan & Co Property presented at Kedron High School Careers Day along with a Solicitor and Property Developer to provide the senior students invaluable insight into where they can take their future career.

Paul as a business owner and developer encouraged students to do follow their passion, make meaningful connections with social media platforms and already start to build a network and mentors in their desired field. Paul also highly endorsed the value and advantage of sales skills in all career paths. Sale skills are life skills and irrespective of if they end up in professional services, medicine, trades, science or the arts; being able to sell your skills in an interview and your personal service in fundamental. Sales is all about being positive, goal-oriented, aptitude and consolidated with the right attitude.

For the students who had goals to be financially successful, Paul broke it down into the 3 main asset classes that can generate wealth:

- Stock Market
- Real Estate
- Business Owner

Working in Commercial Real Estate can be very rewarding career as it provides the opportunity to assist individuals, investors, business owners and in turn the community to be financially prosperous. We hope the guidance from all the presenters at the careers day empowers the students to define a meaningful future for themselves.
